

Project Engineer: Bill Welton  
Contractor: Kiewit Infrastructure West Co.

## Road Closure Update

Kiewit and FHWA are back for another season. We plan to complete this project in September this year. We anticipate road conditions to be constantly improving since we did the mass excavation and fish pipes last year. This year we have some excavation, a few culverts, subbase, base course, paving and bridge work. We do not anticipate utilizing a night shift at this time.

It is our intent this year to coordinate traffic through our project and the Forest Service Project (SRI) as smoothly as possible. To do this we will adjust our schedule to mirror the Forest Service Project. In other words if you're coming north through their project - you will flow right on through ours. If you are headed south through our project, you will line up with their schedule.

Kiewit Infrastructure West Co.,

### **\*\*\* HOURS FOR ROAD CLOSURES \*\*\***

EFFECTIVE: TUESDAY, APRIL 1, 2014

Barricades will be stopping and holding traffic on either end of the work zone and allowing traffic to pass North and South at the following schedule time periods.
